

# Gilded Calm

Quiet luxury. Ivory, charcoal and her gold, light serif type, arched frames and room to breathe. The polished, high-end read of "elevated wellness."

## Logo

Her existing mark stays as is. These rules keep it consistent everywhere.

|                                                                                                       |                                                                                                         |                                                                                                          |                                                                                            |

## Color

Gold leads, but sparingly. Each color has one job.

|                                                                              |                                                                   |                                                                                |
|------------------------------------------------------------------------------|-------------------------------------------------------------------|--------------------------------------------------------------------------------|

- i.

**Checkerboard rhythm**  
Alternate photo and type tiles so no two photos or two text tiles touch side by side.
- ii.

**One charcoal tile per row**  
A charcoal quote anchors each row of three. Gold tiles are for announcements only.
- iii.

**Type on light tiles**  
Cormorant headlines, Cinzel labels, the EH monogram in a corner. No more than ten words.
- iv.

**Captions**  
Open with one honest line, end with one clear next step: book, shop or save.
