

Hillside Press

A community flyer you can dance to.

Tactile, warm and neighborly — the site reads like a riso-printed zine passed hand to hand on the hill. Overprinted suns, halftone dots, taped snapshots, rubber stamps and tear-off tickets make it feel made by people, for people.

04 · SIGNATURE MOTIF

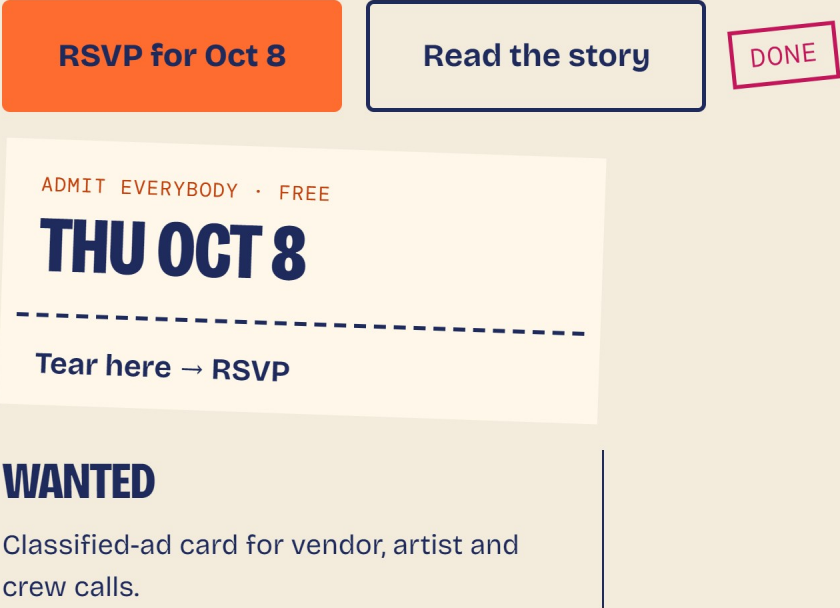

Two suns printed slightly off-register, with halftone dots. Everything else is “stuff on a table”: taped snapshots, stamps, tear-off tickets. Tilt things a few degrees — never more than 8°.

06 · VOICE

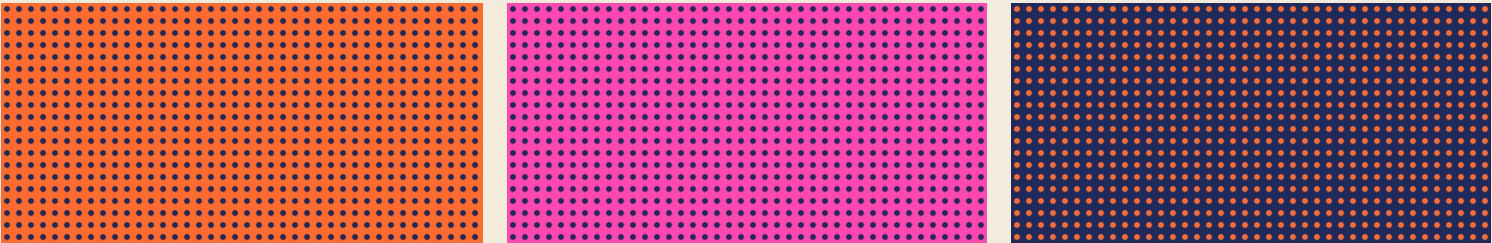

“Dear Richmond —” · “New hill. Same sun. Still free.” · “Help wanted (and very welcome).”

Written like a note from a neighbor. First person plural, a little playful, always specific about where and when.

05 · COMPONENTS

07 · IMAGERY

Candid snapshots, printed as two-color riso duotones (blue + orange or pink) and shown as taped prints with handwritten captions.
