

Sound System

The horizon is a waveform. The sunset is the drop.

Music-first and nocturnal — it leans into the “Electric.” The sun becomes a radiating equalizer and a spinning record; the site borrows the language of music apps: now playing, tracklist, discography, pre-save.

04 · SIGNATURE MOTIF

A radial equalizer sun rising over a waveform horizon. Colors run violet → solar → signal as levels rise. Use real, calm motion on the site: rays breathe slowly to the beat.

06 · VOICE

“The drop is the sunset.” · “Pre-save = RSVP.” · “Tune into the frequency.”

Speak in the language of DJs and releases, but keep it inviting — the music is the hook, the community is the point.
